Workplace Support Services

Is your organization doing enough to support manager development? A recent study found that three out of five of managers feel they don't receive any management training.¹ Managers are the backbone of a thriving organization and drive the success of the business. To keep them at the top of their game, it is important to develop their skills in leadership, problem-solving, decision making, communication and emotional intelligence.

With Workplace Support Services through Magellan Healthcare's Employee Assistance Program (EAP), your leaders receive confidential support to improve their individual performance and team dynamics, as well as access to leadership development resources through training, quarterly newsletters, live webinars and our Manager's Program Guide.

How it works

Your organization's managers can call us 24 hours a day, 7 days a week for confidential advice on addressing team dynamics and individual concerns, such as:

- Assessing challenging situations
- Determining how to intervene based on departmental policies
- Communicating a performance issue
- Offering help in the most productive way
- Identifying important actions to document
- Discussing ways to overcome a difficult situation
- Referring employees to the EAP or other company benefits

Leadership development resources

- Options in Learning training catalog with on-demand and in-person leadership training
- Quarterly Manager newsletter and live webinars on timely and relevant topics
- Manager's Program Guide to help managers use the EAP, address difficult issues, help an employee in crisis and more

Support you can count on

Magellan's EAP Workplace Support Services program provides comprehensive resources to improve leadership, teamwork and morale. Your managers will appreciate these resources, and your organization will benefit from the positive impact they have on employee motivation, building a productive workplace and increasing retention.

Magellan Healthcare Employee Assistance Program

Top-tier Education and Training Services

Attracting and retaining employees is critical to an organization's success. In a national survey of more than 400 employees from three generations, Baby Boomers, Generation X and Millennials, 70% said that training and development opportunities influenced their decision to stay at their job.¹

Magellan's Healthcare's Employee Assistance Program (EAP) includes extensive training resources developed by our in-house team of training professionals and clinical experts. Our robust catalog includes categories for leadership, workplace success, emotional well-being, healthy living, home and family. Training professionals in our national network are selected for their solid understanding of behavioral health and proven success as presenters and facilitators.

Features

- ✓ 60+ courses for managers and employees
- ✓ 16 new, live webinars per year—monthly for employees and quarterly for managers
- ✓ Multiple formats: in-person, via webinar and on-demand
- ✓ Current and relevant topics such as coping with uncertainty and change, tackling life's challenges with resilience, identifying and addressing performance concerns, building teams and more
- ✓ 97% average satisfaction rate for live webinars

Quality you can count on

Magellan Healthcare's training programs are a valuable component of our EAP, and with a 97% satisfaction rate for our live webinars, a proven success. Investing in the personal and professional development of your employees always pays off. Choose our EAP for training that gives your employees the skills and competencies they need to make a positive impact on your organization.

Magellan Healthcare Employee Assistance Program

Critical Incident Response

When your workplace is disrupted by a tragic event, employees may feel overwhelmed, anxious, unsettled and distracted. This could cause lingering emotional trauma and impact work performance and productivity. Is your organization prepared to help people cope with stress caused by traumatic events like a natural or industrial disaster, terrorism or other types of violence?

Critical Incident Response (CIR) is part of Magellan Healthcare's Employee Assistance Program. Our team of expert clinicians is professionally trained in CIR to handle sensitive situations compassionately. CIR counselors help staff process and manage the emotional and physical impacts of a traumatic event by fostering their natural resilience and teaching specific coping skills and strategies.

What does the CIR team do?

Tragedy has many faces, and each experience is unique. Magellan offers a broad range of services including Psychological First Aid (PFA), management consultations, group and individual sessions, and telephonic crisis support.

- ✓ Centralized, dedicated team of clinicians averaging 17 years of experience
- ✓ Available 24 hours a day, 365 days a year
- ✓ 100% client satisfaction rate

Support you can count on

CIR is a valuable service that helps you effectively manage the impact of traumatic events on your employees. They will be grateful for the support, and your organization will benefit from mitigating impacts on absenteeism, low morale and employee turnover.

Magellan Healthcare Employee Assistance Program

Coaching

Magellan's Employee Assistance Program includes Coaching, a service that helps employees define their goals, stay accountable and achieve their desired outcomes. Coaching is an invaluable tool for personal and professional development. One study found that 80% of people who receive coaching report increased self-confidence, and over 70% benefit from improved work performance, relationships and more effective communication skills.¹

How it works

- ☑ Employees and their household members can get help with handling work stress, parenting, improving relationships, weight loss, not getting enough sleep and more.
- ☑ Coaches collaborate with individuals to develop clear and actionable plans and the skills needed to achieve their goals.
- ☑ Coaching appointments are scheduled by phone or video with regular check-ins to track, measure and adjust plans as needed. All sessions are confidential.
- ☑ Coaching is not counseling, so session limits do not apply to this service.

Support you can count on

Coaching helps motivate and empower your employees to excel, and your organization will benefit from their increased confidence, engagement and retention.

Counseling

With the rates of anxiety, depression and suicide on the rise, as well as opioid addiction and substance misuse, counseling can play an important role in promoting a healthy work environment.¹ Mental illness affects millions of people each year; depression alone is estimated to cost the U.S. economy \$210 billion annually, with 50% of the cost borne by employers.² These costs are likely to be underestimated because four in ten adults with mental health disorders do not seek treatment.³ Many of those who do not seek treatment aren't necessarily aware they need help.

Magellan Healthcare's EAP educates your employees about emotional wellness, helping them understand their feelings and know when they might need more help. When that time comes, we provide your employees and their household members free, confidential counseling at any time, day and night.

The advantages of providing counseling

For your employees

- Help with anxiety, grief, depression, relationships, substance misuse and more
- Available in many ways to meet them where they are: in-person, in-app messaging, live chat, phone or video
- A safe space to talk about worries, learn more about themselves and improve coping skills

For your organization

- Employees are better equipped to develop effective solutions to their personal and/or work-related problems.
- Effective treatments can lower medical costs, increase productivity, reduce absenteeism, and decrease disability costs.⁴
- The ROI is \$2 to \$4 for every dollar invested in prevention and early intervention.⁵

Counseling is part of Magellan's core EAP product and can be customized to meet the unique needs of your organization to ensure your employees get the support they need, when, where and how they need it.

Work-Life Web Services

Employees value working in an environment that promotes work-life balance more than ever before. As the boundaries between home and work become blurred due to constant connectivity and more people working remotely, employees are experiencing an increase in burnout and other mental health issues.¹

Work-Life Web Services, part of Magellan Healthcare's Employee Assistance Program (EAP), can help minimize the stress your employees feel when trying to juggle responsibilities at work and home. Work-Life Web Services offers support for life events and money-saving offers. Employees have 24/7 access to interactive, online support tools and content, including thousands of articles, live talks, practical tips and discounts.

Supporting employee work-life balance

- Find resources for help with relationships, parenthood, pet ownership, moving and more
- Locate childcare providers and navigate school options
- Research elder care and living arrangement options
- Get help with financial planning, money management and saving for the future
- Save money on groceries, home, auto and travel through the Discount Center

Work-Life Web Services are important components of our EAP, helping employees manage outside responsibilities efficiently and stay focused at work. Services like these show your employees that you understand their challenges and value their needs. Choose Magellan's EAP with Work-Life Web Services to help your employees get the support they need every day.

Magellan Autism Connections®

Autism Spectrum Disorder (ASD) affects one in 35 children¹ in some states, and all have legislated ASD coverage at some level. Expectations for autism treatment, and risks inherent with any newly mandated coverage, have never been higher. Families are anxious to receive their benefits, and employers must move quickly. An increased demand for ASD treatment providers, coupled with inconsistent regulatory credentialing requirements from state to state, makes it hard to find a quality provider. Enter Magellan Healthcare.

A one-of-a-kind solution

Magellan Healthcare is moving beyond traditional care by combining expertise in the care of children diagnosed with autism with targeted efforts to engage and serve caregivers on their journey—ensuring everyone impacted receives the care they need through an array of services:

- ✓ **Individualized care planning**—every child’s situation is unique. Our care coordinators work with everyone involved in the child’s treatment to develop a custom care plan that optimizes treatment and services.
- ✓ **Enhanced care coordination**—care coordinators follow the child’s treatment from beginning to end, ensuring goals are met and redirecting care as needed for the best outcomes.
- ✓ **Proprietary decision support system**—this tool helps coordinators stay current on clinical guidelines, research and treatment options.
- ✓ **Intensive caregiver support**—caregivers receive training, access to social support networks, and educational materials.
- ✓ **Fully credentialed provider network**—Magellan rigorously evaluates ASD providers to ensure we only contract with those who meet our requirements. Our collaboration on treatment planning and execution enables us to help providers improve quality and performance.
- ✓ **Clinical excellence**—all care coordinators are certified in Applied Behavior Analysis (ABA). They know the language and processes of the providers in our network, enabling them to quickly facilitate each child’s treatment. Our autism physician provides clinical expertise and supports efficient utilization management.

Why Magellan?

We’re a leading choice for autism programs and have achieved impressive results for over 20 health plans and 14 million members with autism benefits and their caregivers across all lines of business.

As many as

Backup Care Connection[®]

Employees across America miss work every day due to changes in their child and elder care arrangements. When regular care plans are disrupted due to planned changes (e.g., school closings, caregiver vacations) or unexpected events (e.g., illness, inclement weather) this convenient and affordable service helps employees secure and pay for temporary child or senior care.

Backup Care Connection helps more employees get to work and stay at work by letting them choose who they want to use for care—whether it’s their own friends and family members or our nationwide network of providers—and reimbursing them for the cost.

Offering Backup Care Connection to your employees has been proven to:

- » Reduce absenteeism
- » Increase productivity
- » Improve morale and loyalty
- » Decrease stress
- » Retain talent

Key features include:

- Temporary care for children and older adults (including mildly ill)
- Access to 2,100+ accredited centers & nearly 950 in-home agencies nationwide
- 24/7 personalized support from highly trained specialists
- Hassle-free and unbiased care options
- A “Friends & Family” plan that dramatically increases usage and satisfaction rates
- Billing management (payments and reimbursements)
- Roll over company’s bank of unused visits to next year
- No mandated annual price increases

With access to Backup Care Connection, employees will have peace of mind knowing their loved ones will be well cared for when they go to work, even when their regular arrangements fall through.

New Parent Coaching Program

Becoming a new parent is a life-changing experience. It is joyful and exhausting. Parents need to learn how to cope with many new things: welcoming a new child into the home, choosing childcare and returning to work. New parents experience a variety of situations that can negatively impact their emotional health, and those with newborns are at an increased risk of depression.^{1,2}

The New Parent Coaching specialized buy-up service through Magellan Healthcare's Employee Assistance Program (EAP) provides personal guidance, resources and ongoing support to help parents adapt to the changes that having a new child brings.

Advantages of the New Parent Coaching Program

- ✓ Personalized coaching and guidance for new parents
- ✓ Help choosing quality childcare
- ✓ Assistance with return-to-work planning, including facilitated communications between employees and managers for mutually optimal outcomes

Support you can count on

The New Parent Coaching Program lets your employees know that you value their service by providing them with resources for the transition to parenthood. Your employees will have peace of mind and be more prepared to focus on their jobs once they return to work.

Senior Care Management

More than 1 in 6 Americans who work full-time or part-time also help care for an elderly or disabled family member, relative or friend.¹ More than half of caregivers work full-time, and 70% of working caregivers experience work-related difficulties due to their dual roles.²

Senior Care Management gives your employees peace of mind by providing them with access to expert caregiving support. This service helps employees make good decisions about their loved one's care needs and saves them time so they can concentrate on their work.

The industry's most comprehensive program

- ✓ In-person assessments by a certified care manager at no cost to the employee
- ✓ A full evaluation of an aging loved one's condition, medical history and home environment
- ✓ Detailed, customized care plan based on the assessment
- ✓ Recommendations for care, home security, local programs and more

Support you can count on

Senior Care Management is viewed as a compassionate benefit because it shows your employees you recognize their challenges and gives them access to services they might not be able to get on their own. Your employees will save time and money and be more productive at work, while your organization will benefit from the increased morale and loyalty employees express after using the service.

Work-Life Kits

Help your employees manage parenting and caregiving milestones with kits delivered right to their doorsteps. Work-Life Kits contain free products, timely information and discount coupons to help them navigate critical life milestones.

When employees are managing life events like returning to work as a breastfeeding mother, caring for an aging parent or sending their child off to college, they may feel stressed and distracted at work. Show your employees you care, decrease their stress, and increase their morale and loyalty by adding Work-Life Kits to your Magellan Employee Assistance Program (EAP) to save them time and money.

Work-Life Kits

Some of our most popular kits include:

- *Adult Caregiver*—Emergency phone number magnet, smoke detector safety labels, pill organizer and medication tracking card
- *Be Well*—Mayo Clinic Guide to Self-Care, nutrition basics guide, pedometer, stretching instructions, and guides on stress management, nutrition basics, fitness and more
- *Child Safety*—A pocket guide to Emergency First Aid, child identification kit, outlet plug covers, night light, small object tester and more
- *College*—Students' Self-Care Guide, pens and highlighters, sewing and manicure kits, emergency whistle key chain with light, and screwdriver set
- *Emergency Preparedness*—Emergency Preparedness Guide, freeze-dried food packages, drinking water pouches, survival blanket and waterproof poncho
- *Mothers at Work*—Milk collection/storage bags, intake/output diary, storage guidelines magnet, breast pump wipes and accessory wipes, cotton bra pads and more
- *Pet First Aid*—Pet First Aid Guide, sterile gauze pads, emergency leash, antibacterial wipes, tweezers and latex gloves
- *Prenatal*—The Happiest Baby on the Block, one-piece infant undergarment, medicine dropper, bib, diaper/bottle bag and two diapers

Support you can count on

Magellan EAP Work-Life Kits help your employees balance their work and personal lives, freeing up their minds to be more productive at work. Providing these shows you care about your employees and can be a valuable component of your benefits program.

My Personal Assistant

Do you know how much time your employees spend at work on their personal cell phones? Would you believe an hour a day, five days a week?¹ You know your employees are going to spend some time on personal tasks at work, but all that non-work time negatively impacts productivity.

There are things employers can do to help. My Personal Assistant is a service that helps employees manage time-consuming daily responsibilities—so they can be more focused and productive at work.

What are My Personal Assistant services?

Consultants take the time to learn about the employee's specific needs and parameters for services: budget, timing, preferred stores or vendors, etc. Once they get to know the employee, the consultant helps with personal tasks such as:

- ☑ Running errands (e.g., drop off/pick up prescriptions and personal items, postal duties)
- ☑ Booking tickets to special events
- ☑ Scheduling home or auto services (e.g., plumbers, lawn services, car repairs)
- ☑ Comparing prices and locating hard-to-find items

Support you can count on

Give your employees precious time back in their day and you will reap the benefits of a more engaged workforce. My Personal Assistant helps reduce workplace distractions and absenteeism and improves employee job satisfaction and loyalty.
